

**IReSP : 10 YEARS ANNIVERSARY
Public Health Research Days**

Thursday 23rd November 2017

9.15am - 12.15pm: Opening Plenary

Moderator: Alfred Spira, IReSP Director (2007 - 2011)

9.15am – 9.45am : Opening speeches

Benoit Vallet, General Director of health

Alain Beretz, Director General of Research and Innovation

Video screening: “What is public health research?”

9.45am - 10.45am : “Social Inequalities in Europe”

Johan Mackenbach, University Medical Center Rotterdam

Public Health 2017: Major future challenges

Moderator: Francois Alla, Co-director IReSP

- I. Research on prevention: yesterday, today and tomorrow?**
Alfredo Morabia, Columbia University
- II. Environmental health**
Philippe Grandjean, Harvard University
- III. Decision-making in health in light of economic challenges (obesity)**
Henri Bergeron, Paris

12.15pm - 1.30pm: Lunch and poster visits

1.30pm - 3.30pm: Simultaneous sessions

S1: Feedback on call to research for handicap and loss of autonomy

Session co-chair: Julie Micheau, CNSA, and Valerie Ulrich, DREES

Scientific introduction: Jean-Francois Ravaud, Paris

- **Xavier Briffault**, analysis of severe and resistant obsessive-compulsive disorder (OCD) with the aim of creating innovative devices for physical disabilities
- **Yannick Courbois**, self-regulation of youth with cognitive impairments during routine learning tasks in a virtual setting
- **Florence Weber**, at the intersection of integrated support of physical handicaps and psychiatric care: a study of the trajectories of patients with chronic mental illness in Ile-de-France
- **Jean-Luc Roelandt**, Evaluative research “Peer/Health intermediaries”
- **Thierry Dantoine**, Socio-economic evaluation of home automated devices associated with the teleassistance of the elderly who are losing their autonomy and that are intended to prevent falls
- **Martine Hours**, Supporting a “close” serious accident: an evaluation of positive and negative dimensions of the accidents on the Rhone road and their families

Discussions open to the room

S2: Feedback on calls to research for the therapeutic education of the patient

Session chair: Alain Fontaine, Directorate of health

Scientific introduction: Marie Preau, Lyon (Preseident of the Call for Projects for the CSE)

- **Zahir Amoura**, Evaluation of a specific therapeutic education programme for patients with systemic lupus erythematosus
- **Aurelie Bourmand**, Development and evaluation of a therapeutic education intervention on the adherence of patients treated with hormone therapies during breast cancer treatment
- **Marianne Lafitte**, The impact of the patient therapeutic education programme on the evolution of chronic cardiovascular disease
- **Maryvete Balcou**, A Multicentred randomised trial on structured educational intervention (ERMIES, in French) of outpatient type 2 diabetes patients who are inadequately monitored in La Reunion: associated ethnologic research
- **Jean-Francois d'Ivernois**, Modelling of the therapeutic education of chronic multi-disease patients in multidisciplinary healthcare practices
- **Pierre Lombrail**, Can attending physicians contribute to the equitable access to therapeutic education: an exploratory study from the regional development and support platform of community therapeutic education for patients in Ile de France

Discussions open to the room

3.30pm - 4pm: Break and poster visits

4pm - 5.30pm: New research challenges

Moderator: Claude Gilbert, Grenoble

- I. **Connected objects and big data**
Rodolphe Thiebaut, Bordeaux
- II. **Mental health and addictions**
Maria Melchior, Paris
- III. **Access to the health system for the most unprivileged**
Florence Jusot, Paris

5.30pm - 6.30pm: Round table: Public health research today

Moderator : Jean-Claude Desenclos, Santé Publique France

Speakers :

Robert Barouki, UMRS 1124 Université Paris-Descartes
Sylvie Fainzang, Cermes3
Dominique Costagliola, Inserm-U-1136
Jérôme Wittwer, ISPED Bordeaux
Sandrine Andrieu, Inserm UMR 1027
Archana Singh-Manoux, Inserm UMRS 1018

6.30pm - 7.45pm: Overview and perspectives of public health research

Hosted by Corinne Alberti, Director of IReSP and ITMO Public Health

- I. **Overview of research on Handicaps and loss of autonomy**, Jean-Luc Outin, DREES et Sarah Bellouze, IReSP
- II. **IReSP, 10 years dedicated to public health research**

Geneviève Chêne, director of IReSP and 'ITMO public health (2014-2017), Bordeaux
Didier Houssin, DGS à la création de IReSP
Pierre Lombrail, Paris
Martine Bungener, Paris
Rémy Slama, Grenoble
Thierry Lang, Toulouse
François Dabis, Directeur de l'ANRS
France Lert, Paris
Lisa Berkman, Harvard School of Public Health
Pierre Czernichow, Rouen

7.45pm - 9pm: Cocktail reception and agora poster

An agora poster will be held during the cocktail reception. The creator will present their poster in front of a public

8pm - 8.10pm: Poster 1 **8.10pm - 8.20pm:** Poster 2 **8.20pm - 8.30pm:** Poster 3

Friday 24th November 2017

9am - 10.30am: New topics of research and links with societal challenges

Moderator: Geneviève Chêne, Director of IReSP and l'ITMO Santé Publique (2014-2017),
Bordeaux

I. Global health

Nicolas Méda, Health minister of Burkina-Faso

II. Health and migration

Annabel Desgrées du Loû, Paris

III. Gender and Health

Emmanuelle Cambois, Paris

10.45am - 12.45pm: Simultaneous sessions

S1: Restoration of calls for research - 2011 rare handicap diseases and 2012 rare handicaps in session 2

Session chair : Julie Micheau, CNSA

Scientific introduction : Bernard Azema

- **Philippe Allain**, Evaluation of the cognitive-somatic-psychological resources of patients at risk of fitting the profile of the presymptomatic diagnosis test for Huntington's disease: to increase the achievement of a full life and quality of life
- **Mathilde Chevignard**, Evaluation of the quality of life, the social insertion and the social participation of a cohort of children who suffered from severe brain trauma, and were prospectively follow-up 7 years post accident
- **Myriam de Leonardis**, Social life and rare handicap: in between restrictions and enabling environments. A comparative study of people with rare/non-rare handicaps and their families
- **Marc Foudrignier**, Employment, jobs and professionalisation in the care of rare handicaps
- **Martine Dutoit**, Identifying and formalising in order to share and transmit knowledge characterising professional activity relating to the reception and support of people with rare handicaps
- **Myriam Winance**, "Rare handicaps" in the transformation of the integrated health sector. Socio-history of a political category, 1960 - 2012.

Discussions open to the floor

S2: Feedback on 2013 calls to project on Cancer cohorts

Session chair: Christin Chomiene, Inca

Scientific introduction: Pierre Ducimetière (President of the CSE of calls to projects)

- **Ayhan Ulusakarya**, First national cohort of home-administered medicine that integrates chronobiology in the home care of cancer patients.
- **Nadia Haddy**, study on the iatrogenic effects of cancer treatments during childhood - the creation of a database of biological samples as part of a patient cohort (F-CCSS Cohort)
- **Isabelle Ray-Coquard**, National prospective cohort (NETSARC) on the link between genetics and sarcoma
- **Angélique BONNAUD ANTIGNAC**, Longitudinal study on the behavioural, economic and sociological changes that happen after cancer

Discussions open to the floor

12.45pm - 2pm: Lunch and poster tour

2pm - 3.30pm: Research and health practices

Moderator: Daniel Benamouzig, Co-Director of ITMO Public Health

I. Intervention research

Linda Cambon, Rennes

II. Health services research

Karine Chevreul, Paris

III. Occupational health: From risk to intervention

Yves Roquelaure, Angers

3.30pm - 4pm: A manifesto for public health research

Daniel Benamouzig, Co-Director of ITMO Public Health et François Alla, co-director of IReSP

4pm - 5pm: Roundtable: The future of public health research and the issue of funding.

Moderator : Corinne Alberti, Director of IReSP and ITMO Public health

Speakers :

Benoit Vallet, DGS

Jean Christophe Dantonel, CGI

François Bourdillon, Santé publique France

Frédéric Bousquet, French National Health Insurance Fund for Salaried Workers (CNAMTS)

Discussions open to the floor

5pm - 5.15pm : Poster prizes

5.15pm - 5.45pm : Closing remarks

Alfred Spira, Director of IReSP (2007-2011)

Corinne Alberti, Director of IReSP and ITMO Public Health
